2015 (2014-15)	2,534	81,114	74,446	6,075		2,122	1,971	11	168,273
<b>Total</b>	<b>71,576</b>	<b>1,072,522</b>	<b>990,031</b>	<b>141,280</b>	<b>968</b>	<b>41,176</b>	<b>42,603</b>	<b>3,110</b>	<b>2,363,266</b>

Note :-

A course is considered off-schedule if the class starts later than the 11 class day of the semester.

Enrollments reported for funding purposes must exclude students who have cancelled registration, withdrawn from all classes, are no-show in all classes, or auditing only. Cancelled registration students shall include students who have not attended classes by the census date and/or who have not paid or have not made arrangements to pay their tuition and fees by the census date. The mark (grade) of AU is included in the end of term file in the event the student's enrollment status is changed to audit during the term. (Agenda Item 17; April 28, 2006).

The FTE calculations are based on course level, not student level. Since student level is not standardized (some universities offering graduate programs have different definitions for FT/PT as allowed by IPEDS)
